## Data security to safeguard your sensitive business information.

Kingston's DataTraveler® Vault Privacy 3.0 (DTVP 3.0) USB Flash drive provides affordable business-grade security with 256-bit AES hardware-based encryption using XTS block cipher mode, which offers stronger protection than CBC and ECB modes. It protects 100 percent of data stored and enforces complex password protection with minimum characteristics to prevent unauthorized access. For additional peace of mind, the drive locks down and reformats after 10 intrusion attempts. It also features a read-only access mode to avoid potential malware risks.

DTVP 3.0 is available with optional, easy-to-deploy anti-virus protection from ESET\* that protects the drive's content from viruses, spyware, Trojans, worms, rootkits, adware and other Internet-borne threats. The ESET NOD32® anti-virus engine provides instant alerts, requires no installation and comes with a five-year pre-activated license.

Companies can add DTVP 3.0 to their standards list with confidence since its industry-leading NAND and controller design allow for NAND to be interchanged without requalification and certification of security features. Plus they no longer have to compromise transfer speeds for safety, due to DTVP 3.0's SuperSpeed USB 3.0 technology and backwards compatibility with USB 2.0.

Companies can also customize the DTVP 3.0 in a variety of ways to meet specific needs and the most frequently requested internal corporate IT requirements, such as serialization numbering (via standard characters or as 2D and 3D barcodes), number of attempted password entries, minimum password length and customized product identifier (PID) for standard end-point management software (white-listing).

DTVP 3.0 is backed by a five-year warranty, free technical support and legendary Kingston® reliability.

- > Mobile business security
- > 256-bit AES hardware-based encryption
- > Complex password protection
- > Optional anti-virus software protection

### FEATURES/BENEFITS

- > **Business-Grade Security** — 100-percent of stored data is protected by hardware-based, 256-bit Advanced Encryption Standard (AES) in XTS mode
- > **USB 3.0** — latest USB standard guarantees backwards compatibility with USB 2.0
- > **Read-Only Access Mode** — when selected, access files in Read-only Mode to avoid potential Malware risks
- > **Enforced password protection** — complex password is user set with minimum characteristics to prevent unauthorized access
- > **Secure** — drive locks down and reformats after 10 intrusion attempts
- > **Easy to use** — no admin rights or application installation required
- > **Customizable**<sup>1</sup> — preload content, password length, maximum number of password attempts and internal/external serialization numbering
- > **Co-Logo**<sup>1</sup> available
- > **Durable** — resilient protection for data in a waterproof<sup>5</sup> aluminum casing
- > **TAA Compliant**

### SPECIFICATIONS

- > **Capacities**<sup>2</sup> 4GB, 8GB, 16GB, 32GB, 64GB
- > **Speed**<sup>3</sup> USB 3.0: 4GB: 80MB/s read, 12MB/s write  
 8GB, 16GB: 165MB/s read, 22MB/s write  
 32GB: 250MB/s read, 40MB/s write  
 64GB: 250MB/s read, 85MB/s write  
 USB 2.0: 4GB: 30MB/s read, 12MB/s write  
 8GB–64GB: 30MB/s read, 20MB/s write
- > **Dimensions** 77.9mm x 22mm x 12.05mm
- > **Operating Temperature** 0°C to 60°C
- > **Storage Temperature** -20°C to 85°C
- > **Minimum System Requirements**
  - USB 3.0 compliant and 2.0 compatible
  - Two (2) free drive letters required for use<sup>4</sup>
- > **Warranty/support** 5-year warranty with free technical support

\*DriveSecurity™ powered by ESET is based on the CleVx DriveSecurity technology licensed from CleVx, LLC.

<sup>1</sup> Minimum quantity required. Performed at the factory.

<sup>2</sup> Some of the listed capacity on a Flash storage device is used for formatting and other functions and thus is not available for data storage. As such, the actual available capacity for data storage is less than what is listed on the products. For more information, go to Kingston's Flash Memory Guide at [kingston.com/flashguide](http://kingston.com/flashguide)

<sup>3</sup> Speed may vary due to hardware, software and usage.

<sup>4</sup> First free drive letters after physical devices such as system partition, optical drives, etc.

<sup>5</sup> Up to 4 ft.; conforms to IEC 60529 IPX8. Product must be clean and dry before use.
