# ABOUT US

We are **To Connect, LLC**, your trusted and strategic technology partner. With a global vision and more than a decade of experience, we specialize in integrating the best available solutions in Information Security, Cloud Services, Business Continuity, and IT Management.

**Our approach goes beyond technology:** we build strong bridges between your business goals, innovation, and growth, leveraging top-tier international partnerships. **Together, we make digital transformation not only possible but incredibly successful. Better Together!**

# REGULATIONS AND COMPLIANCE

We help our clients comply with the most stringent market regulations, such as **ISO, PCI, GDPR, HIPAA, NIST, SOC 2**, and **many more**.

We ensure that IT policies are aligned with the business's strategic goals, guaranteeing compliance and minimizing organizational risk.

# INFORMATION SECURITY

We design robust security strategies that protect the confidentiality, integrity, and availability of your company's information. Our comprehensive solutions include:

 **Perimeter Firewalls:** Advanced protection at your network's borders.

 **SIEM Systems:** Real-time monitoring and management of security events.

 **Data Encryption:** Safeguarding the confidentiality of your critical information.

 **EDR (Endpoint Detection and Response):** Detecting and responding to threats at every endpoint.

## 7 LAYERS OF CYBERSECURITY

# BUSINESS CONTINUITY

Our business continuity solutions ensure your company is always prepared for any unforeseen circumstances. We provide automated backup and recovery solutions at any time and place, focusing on maintaining your critical data and services without interruption.

**1. IDENTIFY:** Risk Assessment

**2. ANALYSE:** Business Impact Analysis

**3. CREATE:** Strategy & Plan Development

**4. MEASURE:** Test, Train & Maintain

# CLOUD SERVICES

The cloud is key to digital transformation. At To Connect, LLC, we offer cloud solutions that provide flexibility, scalability, and cost savings. We eliminate CAPEX, ensuring that your business can quickly adapt to market changes with agile and secure infrastructure, supported by our team of experts.

# IT SERVICES MANAGEMENT

Our IT Service Management solutions are designed to align technology with your business objectives. We implement best practices such as ITIL and COBIT, guaranteeing efficient management, minimizing incidents, and maximizing service quality over time.

# SERVICES
